Sporting Notes

A team from the Juvenile League beat a team from the Grove Sat. afternoon, at the local rink. The feature of the game was Art Davis' unassisted scoring of a goal, coming around behind the goal, catching the goalie off guard, and shooting in the puck.

Onway hockeyists motorized down to Stony on Sunday, but when they had tried out the mushy ice, decided to go home again.

There is a big curling tournament at the local Arena, with all the Club's teams engaged.

United Church Notes.

At the services on Sunday last the Pastor (Rev. G. A. Sauder) took as the subject of his discourse "What Is a Christian?" The answer to this question is given, 1st, by the early Church; 2d, by the Church as established in the Roman Empire; 3d, by the ascetics of the Middle Ages; 4th, by the Nineteenth Century. Rev. Sauder concluded by showing that the only full and adequate answer is found in complying with the one thing frequently mentioned in the New Testament.

W. I. Notes.

The local Woman's Institute announces the holding of a Garden Competition and Flower Show some time in the month of August. The prize list will be announced later. It is some four years since the Show was held in Stony, and this contest is in answer to numerous requests. Mrs. J. F. Clarke is convener of the committee.

At the annual Valentine party held Monday evening at the home of Mrs. J. Becker, some 80 people were present, and the affair was voted a huge success. The prize winners were: Mrs. Wood 1, Mrs. J. F. Clarke 2, Men's: Messrs. Fraser and Julius Kulak.

New Models of Pontiac Big 6

Newly styled and incorporating added features of power and reliability, the new series Pontiac Big Six is announced by General Motors of Canada, models now being on display at Buick-Pontiac Garage. A more powerful engine develops 60 brake power at 3000 r.p.m. and gives remarkable acceleration. Seven body models are offered in the new series of Pontiac Big Six, with the wheelbase remaining at 110".

Features of the new cars include improvements in the windshield, front springs, hydraulic shock absorbers and in the engine. Drivers will learn with pleasure that friction in mechanical parts in the braking system has been reduced so that less pressure on the foot pedal is needed to get the same and even more braking power than usual.

Work Together For Prosperity

As a direct result of the partial crop failure experienced by the three prairie provinces last year, and the disastrous "break" in the stock markets which, although long predicted as inevitable, nevertheless caught thousands of people unawares and resulted in enormous losses to many, there developed a feeling of depression and uneasiness throughout Canada and the United States.

Coming in a year, during the first nine or ten months of which employment in Canada reached a higher peak than ever before in the history of the Dominion, with greater industrial activity, more development work done, and larger building programmes carried out, the country witnessed the paradox of a greater degree of unemployment when winter set in. Although seasonal, and therefore temporary in character, this situation added to the prevailing depression.

Finally, the world's wheat situation became the cause of deep anxiety and concern in Canada because of the fact that this Dominion is now the chief exporter of wheat among the countries of the world. Canada was not the only country which produced an abnormally large wheat crop in 1928, and when the Argentine crop was thrown on the market—at that time to be marketed and sold as soon as it is harvested—a condition existed which necessitated either the holding of the Canadian crop, or selling it in competition with the Argentine at a price which would have yielded less than the actual cost of production. Wisely, the Wheat Pool and other Canadian exporters, supported by the banks, withheld their wheat from export unless, and until, a fair price was obtainable. As a result transportation interests suffered for the time being, export trade declined, and some uneasiness developed because of the unprecedented situation.

For a time the croakers, pessimists and preachers of blue ruin had their innings. And the more they talked, and bemoaned, the larger became the number of people inclined to shake their heads. Nevertheless, the economics of the situation were substantially sound. It was largely a "state of mind," a mental depression which afflicted many people.

If any one is inclined to challenge this statement, let him examine the situation more closely.

For example, the first day's showing of the new 1930 model by a well known manufacturer of automobiles in Canada and the United States brought in \$20,000,000 in orders.

Despite the degree of unemployment existing in Canada, it is less than in any other country, and the actual number of those employed is greater than in any previous year.

The Canadian National Railways have placed, or shortly will place, orders for new equipment and embark on a programme of extensions, involving larger expenditures than in past years.

The C.P.R. has just announced a programme of extensions, betterments, and purchase of new equipment for 1930 involving the expenditure of \$50,000,000.

All Western Governments are planning highway construction programmes in excess of anything attempted in any one year in the past.

Building programmes in the larger cities are in course of preparation which will equal, if not surpass, the high records of 1929, which outdistanced all former years.

There has not been a bank failure in Canada, all our large insurance and financial companies are sound, all our large industrial concerns are busy and prosperous, our mineral production increases in volume and value every year, the peace of the world never appeared more assured than at present.

Then what is there to worry about? Nothing. All the people have to do is to throw off their mental depression, and the fog will be lifted and dissipated.

Governments and Big Business are doing their share not only to keep the country busy and prosperous, but to speed up business and increase prosperity. It remains for the individual man and woman to do likewise. If each individual citizen does his or her share by tackling the particular piece of work close to their hands, 1930 will prove one of Canada's banner years.

Let every workman take a little keener interest in his job, throw a bit more energy into it, strive to perform somewhat better work, in a word, give the best possible value in work for the wages received, and the effect will be startling.

Let the farmer tackle his problem with renewed energy, and confidence will come. Every farm method improved, every vigorous onslaught on noxious weeds, every cow, pig or hen added to the farm, every little vegetable garden planted, will make for profit, contentment and progress.

New energy and enterprise by every merchant, the adoption of new and better methods, scrapping the old and obsolete and introducing something new and better, will make for progress, greater turn-overs, larger profits.

Let everybody work together for prosperity in 1930, and prosperity will be assured.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia, prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Latest Thing in Newspapers

"Loud Speaker" Is Name Of Bootleg Sheet, Published Secretly in Rome

The latest thing in Rome is a bootleg newspaper. It is a 16-page tabloid sheet published in secret and distributed through the dark alleys of the Holy City by underground methods. It is anonymous and its humorous name is "Loud Speaker." It is filled with attacks upon Mussolini and his fascist government, giving news and alleged news which no licensed press would dare print. The Romans are amused, the police puzzled. The dictator's fury can be imagined.

WHY SUFFER FROM ANAEMIA

When Health and Strength Can Be Obtained Through Purifying the Blood

Anaemia is the medical term for thin, watery blood. The sufferer loses strength; becomes pale; is seized with shortness of breath and heart palpitation after the slightest exertion. The least work becomes a burden on life does not seem worth living. Anaemia is not a disease that can be neglected. Unless checked it may grow worse. What is needed to combat this trouble is a good blood tonic, one that will go right to the roots of the trouble and drive all impurities from the system. Such a tonic is Dr. Williams' Pink Pills, which build the blood-builder and strength restorer.

Mrs. John Bain, Avenue Road, Toronto, Ont., writes as follows: "For upwards of seven years I suffered from an anaemic condition. I was so pale, my friends feared consumption. A year ago I was so ill I spent five months in the hospital. I had terrible numbness in my hands and pains in my feet and legs. I was seized with dizzy spells and my heart would palpitate violently. I was so weak they gave me two blood transfusions, but even these did not help me. Eventually I came home from the hospital discouraged. I could do nothing for myself—life was a burden. A friend who came to see me strongly advised me to use Dr. Williams' Pink Pills. As I was unable to try anything that might help me I procured a supply and began taking them. It was some time before I noticed any change in my condition, but gradually I could see a slight improvement. My color began to improve; my sleep sounder; my appetite more keen and the numbness in my hands and limbs gradually left me. I persisted in the use of the Pills and they made me a well woman again. I am now able to do my own work and shopping and have gained over eighteen pounds in weight. I feel perfectly safe in recommending these Pills to other sufferers."

What Dr. Williams' Pink Pills have done for Mrs. Bain they will do for other anaemic men and women. They act directly on the blood and in this way banish such troubles as anaemia, heart palpitation, nervousness and general debility. They are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

Get Salary Boost

Nearly 1,000 Civil Servants Are To Get Wage Increase

Close to one thousand employees of the Dominion Government's income tax branch are glad to be announced of an increase in salary of \$120 a year, effective from April 1, when the new fiscal year will begin. This applies to the service from Halifax to Vancouver, or at least to those who have not already received such an advance.

Adding Insult To Injury

The gigantic truck had collided with a minute private car. "You fool!" shouted the owner of the latter, jumping out and shaking his fist at the truck driver. "Do you mean to tell me that you couldn't see me coming on a straight road like this?"

The other smiled.

"I'm sorry," he said. "It couldn't be helped. You see, I thought your car was a fly on my windshield."

Grandmother knew — She Used Minard's.

Completes Daring Flight

Calgary Aviator Succeeds In Two-Way Hop Across Rockies' Highest Peaks

Back from a daring flight from Calgary to Vancouver across the highest peaks of the Canadian Rockies, Flying Officer W. L. Rutledge, Calgary aviator, brought his Curtiss-Robin monoplane to earth at the municipal airport. He was accompanied by Percy J. K. Payne, secretary-treasurer of Rutledge Air Service, Limited.

The flier quashed the belief that a forced landing in the mountains meant death. There were many places where a forced landing could be made and many others where landing fields could be built.

No longer need the mountains be barriers in the development of aviation through the prairies and coast cities, he said. An air mail and passenger service could be operated, he said, and the trip between the two cities made in four hours.

The time of the flight from Merritt, B.C., where the aviators were delayed for a few days because of bad weather, was three hours and five minutes, covering slightly over 300 miles.

For Frost Bites and Chilblains.

Chilblains come from undue exposure to slush and cold, and frost-bite from the icy winds of winter. In the treatment of either an excellent preparation is Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is prompt and its application is extremely simple.

Secret Died With Him

Italian Chemist Refused To Tell Of Valuable Preparation

Although in dire straits and hardly able to pay for a meal a day, Francesco Rocchi, the noted Italian artist-chemist, always refused to divulge his secret chemical preparation to cure "cancer-of-bronze," a mysterious disease which eats bronze. The professor had also discovered a cure that arrested the decay of old paintings. Although he was repeatedly offered huge sums of money for his invention, he consistently refused to divulge them. A few days ago he died of starvation.

Inhabitants in ancient Pompeii were specialists in wall decoration, painting their plastered walls in rich, flat tones and in decorative medallions.

Minard's—The Great White Liniment.

An eminent lawyer says: "As all lawyers know, law is the merriest game of chance in the world, for nobody has an idea what the law is in the first place, or how a judge will apply it in the second, or thirdly, what the jury will do."

Winners In Wheat Competitions Distributed Widely Throughout Wheat Growing Area In West

The successes of Western Canadian farmers in international wheat competition, within a period of nineteen years since the institution of the award in 1911, constitute one of the most impressive features in the records of Canadian agriculture. On fifteen occasions, the Dominion's representatives won against all North

winning of such competitions is, first and foremost, a tribute to the talent of the exhibitor. But their work has done more than that—it has brought renown to the west, and to the whole Dominion. And it is a matter of gratification that this notable series of successes has not been monopolized within any

America with exhibits of hard red spring wheat and in addition in two other years they carried off the prize for the best hard red spring wheat, although in the two years just referred to they lost the grand championship to hard red winter wheat by a narrow margin. The work of these master farmers has brought them high personal distinction, for the win-

restricted area. As the accompanying map indicates, the locations of the Canadian winners of the highest honours in North American wheat competitions are remarkably well and widely distributed throughout the vast area of wheat-growing territory in the Canadian West. The Prairie Provinces furnish a far-flung habitat for wheat of premier quality.

Shows Development Of West

Last Year's "Small" Crop Would Have Been Bumper Ten Years Ago

How far the development in Western Canada has proceeded in recent years may be realized by noting the size of the wheat crop (270,000,000 bushels), that we now refer to as a small one. In no year previous to the war was any such production attained, and with the exception of 1915, when crop yields per acre were extraordinarily large, it was not until 1921 that Western Canada produced so large a quantity of wheat, points out Hon. T. A. Crerar in a signed statement.

"For the 10 years ended in 1920, the West's annual production of wheat averaged 214,000,000 bushels but for the four years which ended in 1925, the average production was 425,000,000 bushels. Before 1915, the acreage of lands in Western Canada devoted to wheat did not exceed 11,000,000 acres, but in 1925 it was almost 25,000,000. Including land under crops, summer-fallow and temporary pastures, over 50,000,000 acres are now under cultivation in the West."

May Make Tour Of Europe

The new British airmail, B-100, will not be flown to Canada until the spring. Whether the giant vessel will be kept in its hangar in the meantime is doubtful. The suggestion is being put forward that she should make a comprehensive tour of Europe, which would enable her crew to gain further experience in the handling of the great vessel.

Glass walls and doors, furniture made of metal and glass, and a fountain illuminated by coloured lights are features of a house planned by lecturer at Cambridge University, England.

"Come and have a coffee."
"What? I am going to the office and coffee prevents my sleeping!"
—Pages Galas, Yverdon.

W. N. U., 1825

An Important Agent

Fanning Mill Is Great Help In Getting Ready For Seeding

It will not be long before most farmers begin to think about getting the seed oats ready before the spring rush starts and there is no more important agent in this preparation than the fanning mill. Yet it is doubtful if any piece of farm machinery gets more abuse in a year than this necessary piece of equipment.

The work of the mill is three-fold: by the air to blow out useless impurities and light grain, by the ridges to carry over large grain of foreign varieties, and by the sieves to grade the grain to size and remove weed seeds. If, through neglect or abuse, the mill is unable to carry out one or more of these functions its usefulness is minimized.

It is a good plan to check over the sieves to make sure that they have not suffered too seriously since last fall or when they were last used, and it is important that any repairs incidental to the fans be attended to. A machine which has some fans missing is reduced in efficiency to the extent as it is lacking in these parts.

One of the most important items to keep in mind while the grain is being run through the mill, is that a rush job is no job, and to get the best results the grain must be fed down from the hopper at a reasonably slow rate of speed.

Heads Jersey Cattle Club

Viscount Willington Is Honorary President Of Canadian Organisation

His Excellency, Viscount Willington, accepted the nomination of honorary president of the Canadian Jersey Cattle Club, at the convention held in Toronto. Lt. Col. Bartley Bull, of Brampton, Ont., had extended the invitation to His Excellency on behalf of the club, and received a telegram in which the governor general accepted. Viscount Willington is greatly interested in the breeding of Jerseys, and stocked them on his farms in England.

J. M. McGillivray, Sardin, B.C., was elected president of the organization, and will also hold the office of British Columbia director. Dr. I. D. McIntosh, Hartland, N.B., was elected director for the Maritime provinces, and Robert Davidson, North Halley, Que., as Quebec director. Col. Bull was elected honorary director.

One hundred delegates from all parts of Canada attended sessions.

Rumor has it that huddle system in football was devised by a coach who saw some Scotchman lighting their pipes.

(By Anabelle Worthington)

H-3141

The dipping back hem of circular skirt in novel wool and silk crepe print accentuates slenderness and gives the figure charming length.

The normal waistline is indicated by plaits at underarm seams and shirring at centre-front which also gives prominence to flat neckline. The shoulders have inverted tucks at front. The collarless Vionnet neckline has dainty surmount tuckling at center-back.

Style No. 3141 that can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust, is made with 3½ yards of 39-inch material with ¾ yard of 39-inch contrast and 1 yard of binding in the medium size.

It appears intricate. Try it! You'll be amazed at the simple manner in which it is made, for it is practically a two-piece skirt to be seamed and stitched to two-piece bodice.

Black flat silk crepe, dahlia purple canton crepe, deep maroon red chiffon, black tulle, Havana brown crepe satin and navy blue crepe maroon are ideal selections, so entirely flattering.

Pattern price 25 cents. Be sure to fill in size of pattern.

The Way To Success

Planet—"If you are to make that song successful you must sing loud."

Vocalist—"I'm singing as loud as I can. What more can I do?"

Planet—"Be more enthusiastic. Open your mouth and throw yourself into it!"

Young Quebec Goes Exploring

"Ti Bonhomme," (The Little Tad) is away with his sled and he doesn't care where he winds up. He is rehearsing his part in the great Winter Ice Pageant to be held at Quebec this month. Weather means nothing to him, so long as it is cold weather and as for zero, well, the more it zeroes the more he likes it. He is dressed for the part and would not be out of place in the Byrd expedition. At present he is emulating "Jiff," lead dog in the mush team of Arthur Heavens, and is practising for the International Dog Derby later in February, though he will not likely figure among the entrants. Imagination is however the main thing and doubtless the bracing air of Quebec gives it a zip.

Making Air Navigation Maps Is The Most Recent Development In Aerial Surveys In Canada

Grain Crop Production

Canada's Total Yield Of Wheat For 1929 Is Placed At 290,520,000 Bushels

The total yield of wheat in Canada in 1929 is estimated at 290,520,000 bushels, from 25,253,002 acres, according to the annual crop report recently issued by the Canadian Government Bureau of Statistics. This is 267,206,000 bushels less than the yield in 1928. Last year's oats crop totalled 252,838,300 bushels or over 170,000,000 bushels less than the previous year. The 1929 yield of barley was 102,313,300 bushels which was about 34,000,000 bushels below the production in 1928. Of the total yields of these three crops the prairie provinces—Manitoba, Saskatchewan, and Alberta—grew 276,664,000 bushels of wheat; 141,620,000 bushels of oats, and 79,787,000 bushels of barley. Reduced production is due to unusual climate conditions in 1929.

Selling College Stock

University Of B.C. Will Offer About Forty Head For Sale

Decision of the British Columbia Government to curtail the expenditure on the agricultural department of the University of British Columbia has caused the University authorities to decide on a sale of purebred Jerseys and Ayrshires on March 5. The exact number to be offered has not yet been fully decided, but it is expected that at least 40 head will be put up. The offering will include the progeny of the imported Ayrshire herd, six bulls and four heifers, all sired by some of the most noted bulls in Scotland. The Jerseys are all of the University's breeding. In addition to the cattle, ten head of purebred Clydesdales of the University's breeding, mostly mares and fillies, will also be offered.

Canada's Wool Production

Larger Production Shown In 1929 Than In Previous Year

The total production of wool in Canada in 1929, is estimated at 21,234,000 pounds, as compared with 19,614,430 pounds in 1928, and the value provisionally at \$4,247,000, as compared with \$5,099,000 in the previous year. Ontario was the largest producer of wool last year among the provinces of Canada, with 8,300,000 pounds, followed by Quebec with 5,498,000 pounds; Alberta, 3,654,000; Nova Scotia, 1,584,000; Saskatchewan, 1,192,000; British Columbia, 1,156,000; Manitoba, 1,015,000; New Brunswick, 866,000; Prince Edward Island, 553,000; and Indian Reserves, 18,000.

We feel sorry for a man with a swelled head. It usually plagues his brain.

"The most recent development in aerial surveys in Canada include the making of air navigation maps for the special use of aviators," said A. O. Gorman, D.L.S., in presenting the report of the aerial surveys committee to the annual convention of the Dominion Land Surveyors at Ottawa.

"These maps are being produced under federal auspices," said Mr. Gorman, "one strip map on a scale of four miles to one inch covering the air mail route from Montreal to Morrisburg has already been issued and another on a scale of eight miles to one inch, covering the air mail route from Winnipeg to Regina, is in course of preparation."

Aeronautical information including airports, seaplane ports, radio beacon, revolving or flashing beacons, are shown in red on these maps. Other topography shown is limited largely to features which may serve to guide the flyer, and railroads, the larger bodies of water, wooded areas, towns and roads are given prominence.

"During the year 1929," said Mr. Gorman, "76,450 square miles were photographed from the air for mapping purposes. This exceeds by 18,000 square miles the area photographed in 1928."

Mr. Gorman described in detail a new technical method of constructing a map from vertical photographs which is being tried out experimentally, and which so far has proved satisfactory and has marked advances over methods previously used.

A detailed survey of some 20,000 square miles of undeveloped country in British Columbia tributary to the Pacific Great Eastern Railway was made during 1929, T. S. Nash announced when making a report of the land surveys committee. "The success of this railway," he said, "is the present terminus of which is at Quesson, on the Fraser River, though it has been graded as far as Prince George, depends upon the development of the country tributary to it and its extension to tap the Peace River country. The railway is owned and operated by the people of British Columbia."

In all the provinces of Canada there was an increasing public demand for topographical surveys and the resulting detailed maps which were so essential to the proper development of our natural resources, said Mr. Nash.

Town sites in the far north were surveyed, settlements on James Bay mapped out, oyster beds surveyed at Prince Edward Island, the boundary fixed between Ontario and Manitoba, 100,000 acres blocked out in the Peace River district. Mr. Nash's report was an impressive summary of the activity of this country in charting its resources. With the prospect of making possible the development of the country tributary to the P.E.I. survey, the work in co-operation with the government of British Columbia, the Canadian National Railway, and the Canadian Pacific Railway.

Alberta Fur Production

From July 1st, 1928, to June 30th, 1929, inclusive, the fur production in the Province of Alberta amounted to 1,660,562 pelts, valued at \$2,473,191.40. The fur produced during the same period of the previous year was valued at \$1,981,991.50. Exports during the period totalled 1,622,963 pelts, valued at \$3,871,797.80.

A man in Atchison, Kansas, can play a double with his toes. This has an advantage, leaving the hands free for self-defence.

"I like the house, but it is small."
"What can you expect? It is only three years old."—Buen Humor, Madrid.

NAVAL DELEGATES STRIVE TO REACH SOME AGREEMENT

London, England.—Moving slowly, like a big ship passing through a foggy channel, the naval conference is progressing. The "big five" have now got to the stage where they are putting down the total figures of their naval needs—the round figures in hundreds of thousands of tons of the total naval requirements of their countries.

In full committee of the whole, the delegates discussed the report of the experts; a report which attempts to find a common agreement between the old rival ways of measuring and limiting naval armaments, one by lump tonnage for a whole navy, the other by limits of tonnage for each class of vessel, and the committee decided to forward this report on to the heads of the five delegations.

In its classification plan, the experts' report follows gun power as well as by tonnage of the respective type of ship. Japan agreed. The United States also agreed so far as the main categories are concerned. But the United States did not favor the subdivision between 6-inch gun and 8-inch gun cruisers. France reserved its opinion. Italy preferred the general principle of global—lump tonnage.

The United States also re-asserted her old position against fixing maximum and minimum sizes for cruisers carrying 6-inch guns. The old difference was still there, between the United States' liking for 10,000-ton cruisers carrying 8-inch guns, and the British need for a larger number of smaller cruisers with 6-inch guns. Such reports of the remainder of the discussion as are available, indicate it was highly technical, with a division of opinion over the clause permitting a transfer of 10 per cent of the tonnage of one class into another class.

Rt. Hon. A. V. Alexander, first lord of the admiralty, told quest'ners in the House of Commons that there was no question of Great Britain scrapping any of her latest battleships.

Premier Ramsay MacDonald also told a questioner later that no proposal had been made at the naval conference by any foreign delegate that would entail the scrapping of battleships of the "Queen Elizabeth" or "Royal Sovereign" classes. The premier's reply was:

"The answer to the question is decidedly in the negative."

The questions were prompted chiefly by reports that the United States instead of asking for scrapping of certain British battleships on an age basis would ask that vessels of the "Queen Elizabeth" or "Royal Sovereign" class be scrapped in order to bring the United States and British battle fleets on an equal basis.

In response to other questions the first lord of the admiralty said the number of 50 cruisers as necessary for the British Empire had been arrived at after a full investigation and that this number would meet all requirements for the period of the agreement which it was hoped would result from the London naval conference. The number he added was subject to successful outcome of the conference.

The United States delegation announced officially that no proposal regarding neutralization of the Philippines had come to the attention of the United States representatives.

Toll Of White Plague

Quebec, Que.—Tuberculosis ranks first as a contributor to Quebec's death rate, according to the report of vital statistics, contained in the report of the provincial bureau of health for the year ended June 30, 1929. The "white plague" claimed 3,208 lives in the year under review, establishing a rate of 2121 per 100,000 of population.

Will Make License Plates

Victoria.—A dozen convicts of Oakalla Jail, will be employed making motor license plates for the province and the saving to the Government will be approximately \$5,000, members of the public accounts committee of the British Columbia Legislature were told by Col. Don Martyn, industrial commissioner.

Under Exchange Plan

Rolling Regarding University Students Innovation In Canada

Toronto, Ont.—An exchange system for university undergraduates in their third year has been announced by the National Federation of Canadian University students.

This is an innovation in Canada and means that any bona fide student of a Canadian university who has completed two years of his or her course may by application, be allowed to pursue the third year of that course at another Canadian university, and may receive credit for the same from his alma mater. Moreover his tuition for that year will be free. This privilege is granted to federation scholars. Exchange is permitted only between different geographical divisions which are as follows: University of British Columbia, University of Alberta, Saskatchewan, and Manitoba. Universities of Ontario and Quebec and Universities of the Maritime provinces.

To Increase Production

Conference To Be Held To Devise Ways Of Speeding Up Production

Of Bacon, Butter, Eggs and Cheese
Ottawa.—Invitations went forwarded today from the Dominion Department of Agriculture to each of the provincial ministers of agriculture, inviting them or their representatives to attend a conference in Ottawa on March 11 and 12. The object of the conference is to devise ways and means of increasing the production of bacon, butter, eggs and cheese. Representatives of co-operative societies and various livestock organizations will also be invited.

The letter which was sent out by J. H. Gristdale, deputy minister of agriculture, points out that the volume of livestock products available for export is steadily decreasing. It is in order to keep pace with increasing consumption and get hold of export trade that this get-together conference has been arranged.

Customs Clearings At The Pas

Second Only To Winnipeg According To January Figures

The Pas, Man.—Customs clearings in The Pas during January were second only to Winnipeg in the province, according to figures released by C. S. Kremppeaux, local officer. The total of \$69,780.63 reached a new peak for January, and constituted the second largest figures for that month of any customs port in Manitoba.

The average volume of business passing through his office is about \$25,000 a month. The entire work is at present handled by the customs officer and his assistant, E. Ganache. Efforts are now being made by board of trade officials to secure a federal building which would house both the post office and the customs department.

Reward Is Offered

Want Information As To Whereabouts Of Missing White Russian Leader

Paris.—A reward of \$20,000 for information as to the whereabouts of General Alexandre Paul Koutieff, the White Russian leader who disappeared from the street here more than two weeks ago, was offered today by the newspaper "Le Martin."

The reward will be paid whether the general is found dead or alive, but the information must also permit identification of persons responsible for his disappearance.

Soviet Office Raided

Munich, Germany.—Twenty policemen raided the office of the Soviet Trade Commissioner here, arrested the officials and seized documents and correspondence from the office files. The trade commissioner was later released. The correspondence was said to have concerned the proposed sale of explosives by the Soviet government to German firms.

Plan Colleges For Firemen

New York.—Plans for firemen's "colleges" throughout the United States and Canada were outlined at an executive session of the International Association of Fire Chiefs. Winnipeg, Canada, was selected as the place for the annual meeting which opens next September 9.

COMELY BRITISH ACTRESS

Margaret Bannerman, well-known to English and Canadian play-goers, who has been selected as "the prettiest woman on the British stage."

St. Goddard Made Best Time

But Finished Third In New England Handicap Dog Race

Laconia, N.H.—Roland Lombard, 18-year-old Raymond, Me., boy, won the 90-mile New England sled handicap dog race when he finished the third 30-mile leg in 2 hours 43 minutes 25 seconds.

Emil St. Goddard, of The Pas, Man., scratch man, finished third under the handicapping, but he had the best actual time, for which he received the \$500 prize. St. Goddard covered today's 30 miles in 2 hours 27 minutes, 30 seconds, his poorest time for the three days. It gave him a three-day total of 7 hours 8 minutes.

Georges Chevette made second best actual time. His actual time for the 90 miles was 7 hours 35 minutes. Earl Brydges, Cranberry Portage, Man., who under the handicapping finished well down on the list, had third best actual time.

Bill Given Third Reading

Agreement Ratifying Return Of Resources Passes Manitoba House

Winnipeg.—Record for quick passage was created in the legislature, when the bill ratifying the agreement for transfer of the natural resources from Dominion to provincial control was given third reading.

The most far-reaching piece of legislation before the house, the bill emerged from the commonsense stage without amendment, and it was but the work of a moment for Hon. W. J. Major's motion of adoption to be carried unanimously.

The agreement with the Dominion Government was signed in Ottawa on December 14, last, and now requires only the sanction of the Federal Parliament to make it operative.

Featured In Ice Pageant

They are Miss Louise Bertram and Miss Gwyneth Osborne, who with twenty-two other girls from the Toronto Skating Club, all dressed in pretty red and black costumes, will take part in the special number, "Dance Moderne," to be given in the Frontenac Winter Sports Club Ice Pageant, at Quebec, during February.

Received In Good Faith

Canadian Press Regrets Publication Of Despatch Regarding Canadian Flour

Toronto.—On behalf of the Canadian Press, its general manager, J. F. B. Livesey, issued the following statement:

"On February 9, the Canadian Press sent out from Toronto a news despatch containing a statement that trucks, wagons and windows of the Lyons restaurants in London, England, displayed placards, 'We do not use Canadian flour.'"

The next day the London manager of the Canadian Press cabled the emphatic denial of Messrs. J. Lyons and Company, Limited, whose head office is in London, and this was at once circulated throughout the daily newspapers of Canada with the request that they publish it with expression of regret for the original despatch.

"The original despatch was handed to the Canadian Press from a source it considered reliable and was carried in good faith. But the Canadian Press unreservedly accepts the denial of the Lyons Company, and now desires to express its sincere regrets and apology for the wrong unintentionally done to that company."

Flying Clubs Need Money

Amalgamation Would Solve Problem In Canada Opinion Of General MacBrien

Montreal, Que.—Out of 24 flying clubs in Canada today, 18 are in financial difficulties, and must get some more money from other sources if they are to continue. The remaining six, if they paid all their book debts, would also be behind, Major-General J. H. MacBrien, president of the Aviation League, told members of the Montreal Light Aeroplanes Club.

In offering a solution to the problem facing this new industry, General MacBrien suggested an amalgamation of all the flying clubs and small operating companies in Canada under the name of the National Flying Services of Canada, Limited, on the basis of a government subsidy.

Will Attend Celebration

Montreal.—His Excellency Lord Willington has accepted an invitation to attend the golden jubilee celebration of the founding of the McGill Union Debating Society to be held on March 21. He will be given an honorary membership in the society, according to an announcement at the university recently.

Would Cut Imports

Berlin.—The cabinet has drafted a bill intended to decrease wheat imports into Germany. It provides that bread, in which an increasing quantity of wheat has been used lately, must be blended with rye to the extent of 90 per cent.

UPHOLDS THE LEGITIMACY OF POOL METHODS

London, England.—What he called a "corrective to so much rot being talked by responsible people about the wheat market," was administered by Hon. Herbert Greenfield, Alberta's agent-general in London, at a luncheon of the Canadian Chamber of Commerce here.

Mr. Greenfield proposed a toast to Anglo-Canadian trade.

Mr. Greenfield formerly was premier of Alberta, active in the Canadian farmers' movement, served on the Canadian council of agriculture, and was for some years vice-president of the United Farmers of Alberta.

After outlining the essential business nature of the Canadian wheat pool and the legitimacy of its methods, Mr. Greenfield reminded his hearers that without the protection of the pool, Canadian wheat would be dumped onto the market on the present crop year without a margin of profit, to the tune of a \$200,000,000 decrease in the buying power of the Canadian farm.

He had been speaking to a member of the pool recently, Mr. Greenfield continued. He had ascertained indications that the situation was clearing up. But any talk of bad feeling between the British buyer and the Canadian seller was sheer rubbish.

"It just doesn't exist," he said.

Mr. Greenfield's solution for the development of imperial trade was to tackle the problem not as a political issue but by letting hard headed and successful business men get together to hammer out their own scheme.

J. M. Gillett, head of the British Government's department of overseas trade, expressed the view that considering the trade balance was continually weighed in favor of Canada, the first essential in such a scheme as Mr. Greenfield proposed would be to increase British exports. He was convinced the ability of Great Britain to supply the world's needs on reasonable terms would be materially improved in the near future and he derived much comfort he said from the projected Canadian transport improvement to bring Britain and Western Canada into closer commercial interests here.

He was referring to the Hudson Bay Railway and outlet.

Canaries Lived Through Fire

Seven Thousand In Hold Of Ship Were Unharmed

New York.—Far down in number four hold, flames to the right and left of the main work were radically improved in the near future and he derived much comfort he said from the projected Canadian transport improvement to bring Britain and Western Canada into closer commercial interests here.

When the firemen penetrated the hold expecting to find the birds all dead, they were greeted by cheerful chirps. There was no indication that the flames or smoke had reached the feathered passengers.

Motherwell Much

Improved In Health

Minister Of Agriculture Will Take Seat When House Of Commons Opens

Ottawa.—Hon. W. R. Motherwell, Minister of Agriculture, will take his seat when the House opens, although not yet fully recovered from his recent serious illness.

He will not take over the full duties of his department for the time being, and may make a trip to the West Indies to further recuperate.

Expect Report On Line

Ottawa, Ont.—The report to the government on the short line from Winnipeg to Hudson Bay will probably be ready for the opening of parliament this session, it was learned at the railways and canal department.

Gonan Doyle Ill

London, England.—Suffering from overwork and an attack of angina pectoris, Sir Arthur Conan Doyle, noted author, has been ordered by a heart specialist to take a complete rest for three months.

Spruce Grove News

Mrs L. Piercy entertained a few friends to a bridge party at the Schoolhouse on Friday evening, 14th inst.

A dainty Valentine Tea was held at the home of Mrs H. Sarkey, Winterburn. Miss Forbes, accompanied by Mesdames Sherwin and Elder, were present.

Mr Lorenzo Eccles, who has been here for the past week, has returned to the S.J. Eccles camp at Lobstick Sat. last.

Mr S. Baldwin, Entwistle, was a week-end visitor with Mr Morrow.

Mrs Ph. Schwindt returned Tuesday morning from Vancouver. She had as a traveling companion her niece Miss J. Taylor, who intends paying an extended visit here.

Mr R. N. Sherwin was a business visitor to Stony on Sat. last.

Mr and Mrs Jac. Fuhr have moved up to Stony.

Mike Ducholke returned last week from Buford camp.

Old Man John Schilling, who wandered away from the Eventide Home a short time ago, causing the Superintendent some anxiety as to his fate, was located in the southern part of this district, where he was visiting old friends.

Mr J. Fraser was successful in winning a first prize at the Institute party in Stony on Monday night.

The local painters and decorators are, at present, repainting the interior of the Spruce Grove Hardware.

A fairly large crowd was in attendance at the meeting of the ratepayers of the Spruce Grove M. D., held Saturday at Winterburn Hall. The following nominations were made: Div. 1—Councillor Latimer and Mr Evans; Div. 5—Councillor Hagen and G. Bevington. There will be no contest in Div. 3.

Auctioneer Brox is holding a sale at the Grove on Friday next, Feb. 21, of stock and goods, the property of Dr J. Jackson and Mr G. Lacerte. Sale 1 p.m.

The Grove's Scouts were again defeated on Sat. last by Stony Juveniles 4-1. Major Hoople says, in his news topics, that the juveniles had to pick outside players in order to even up the game.

The popular indoor sport at the present time is mixing up the multifarious ingredients for the Summerwurst. Butcher McKean has been supplying the foundation for the wurst with his prime number one beef, having got in another carload yesterday.

NOTICE.

IN THE ESTATE OF BERTHA A. BRAUNT, late of Stony Plain, in the Province of Alberta, Widow, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the Estate of the above named Bertha Braunt, who died on the 27th day of December, A. D. 1929, are required to file with the Solicitor for the Executor by the fifteenth day of March, A. D. 1930, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which shall have been brought to his knowledge.

DATED at Stony Plain this 28th day of January, 1930.

GEORGE J. BRYAN,
Solicitor for the Executor.

The Domestic Animals Act (Municipalities)

Sale and Redemption of Impounded Animals.

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that 1 Brown Gelding (aged) weight 1450 pounds, white star, white hind feet, no brand, was impounded in the pound kept by C. Cole man; located on the SW 11-52-3-5, Duffield, Alberta, on Monday 16th day of Dec. A. D. 1929, and that the said animal was sold on the 27th day of Dec. 1929, to W. Burton of Duffield, Alta., and that the said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of the above-mentioned animal.

For information apply to the undersigned.
E. H. PIDGEON,
Sec.-Treas. of the Municipality of Inga No. 520.
Postoffice, Stony Plain

Hazel A. Lundy vs. Charles H. Milton.

To the above named Defendant, Charles Henry Milton.

Take notice that this action was on the 3rd day of February, 1930, commenced against you and the plaintiff by her Writ of Summons upon a Mortgage dated the 13th day of March, 1925, made by you in favor of Frederick William Lundy and the plaintiff claims that there is now due under the said Mortgage the sum of \$233.00, and the plaintiff claims that the said Mortgage may be enforced by foreclosure.

AND Take Notice that the Court as by Order dated the 3rd day of February, 1930, authorized service of the Writ of Summons on you by the insertion of this Notice in The Stony Plain Sun.

And Further Take Notice that you are required within 21 days after the insertion of this Advertisement to cause to be filed in the office of the Clerk of the District Court, Judicial District of Edmonton, a Statement of Defence or Demand for Notice and that in default of your so doing the plaintiff may proceed with this action and judgment may be given against you in your absence.

GEORGE J. BRYAN,
Solicitor for Plaintiff.

Canadian Pacific Builds City

Ready and fully equipped to house a population of 8,000, "Fez City" is now being built by the Canadian Pacific Railway for the accommodation of the army of Shriners who will make Toronto their Mecca next June. Mainly, the city will be composed of sleeping cars, three hundred of which will be impounded in service while marquees will take the place of administration and service buildings. It will closely adjoin the exhibition grounds where the Shriners will hold their convention. Fez City

will be fully equipped with a miniature hospital, restaurant, barber shop, shoe shine and even beauty parlor, news stands, cigar stands and candy counters. It will be cut in half by "The Midway" from which 1st, 2nd, 3rd, etc., streets will radiate, and "Rameses Drive" will handle all the motor traffic. Canadian Pacific and City police will co-operate in the protection of this new city. The cars will be arranged in the order that they will pull out for home at the end of the convention. The city will be brilliantly illuminated by electric light.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Immigration Hall, Edmonton, Alberta," will be received until 12 o'clock noon, Thursday, March 6, 1930, for the construction of an Immigration Hall at Edmonton, Alberta.

Plans and specification can be seen and forms of tender obtained at the offices of the Chief Architect, Department of Public Works, Ottawa, the Canadian Public Building, Edmonton, Alta., and the Resident Architect, Asst. Receiver General's Bldg., Calgary, Alberta.

Blue prints can be obtained at the office of the Chief Architect, Department of Public Works, by depositing an accepted bank cheque for the sum of \$20.00, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submits a regular bid.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

By order,
N. DESJARDINS,
Secretary.

Stony Plain and District

Mrs Ronzer of Entwistle who had been paying a visit in Stony with her daughter, Mrs J Christie, has returned to her home.

Magistrate Williams held a short Court session in Stony, on Tuesday.

Mr A E Michael, of the Stony Plain Hardware, John Deere dealers, conducted a large party, on Tuesday, to Edmonton, to attend the two-day Free Tractor School.

Rev H J Boettcher was a visitor in Stony on Saturday, being a delegate to the W L Conference.

Mr D Maizemko was taken in, this week, to the Military hospital, for treatment.

While Tinsmith George V Knabel was motoring to his home on the Baseline his car caught fire. George run 'er in the ditch opposite the Horn farm.

Rev W A Baepfer preached the sermon Sunday evening, to Walter League Conference members, in Stony Plain. Rev E Eberhardt and Rev V A Osterman were present.

An address on "Social Hygiene," accompanied by moving pictures, was given Tuesday night, in Stony Plain by Mr Cook, for the Department of Public Health. There was a fair attendance.

Christie's Cafe was the scene of merriment and animation Sat. evening, when the members of the Walter League attending the Winter Conference sat down to the annual banquet. Overthreescore were present.

The Main St. Beauty Shop, formerly operated by Bentz & Symons, has been re-opened by the Misses Mary Carmichael and Anna Leslie.

The Newly-weds Mr and Mrs John Coyes were "at home" to their friends, on Sunday afternoon last, at their new home, when hospitality was again dispensed with a generous hand. Dancing and games helped to pass a very pleasant time.

Mr Pete Baron, the well-known farmer of Rosenthal district, has the posters out for his mammoth sale of stock, machinery, etc., to be held on Monday March 17.

An informal dance will be given at Holborn Hall Friday Feb. 28th, by Martin's Orchestra.

About the only important news, this week, are Electrician Trapp has recovered from his illness, and Mr Dinning has reduced the prices on nine brands of Scotch whisky.

GIRL WANTED—Christie's Restaurant.

Remember the new address of the Stony Plain Pharmacy, Main St., one block south of the old stand.

GIRL WANTED—Christie's Restaurant.

Inga M.D. Meeting

A good crowd of Inga M.D. ratepayers was in attendance, Sat. afternoon, at the annual meeting, held in Duffield.

Discussions took place on various topics, the meeting being much quieter than for several years.

When nominations for the councillorships were called for, the following names were put up—

Div. 2—Fred H Kreye, J A Young;
Div. 3—Geo Akin, C W Ibsen;

Div. 5—R C Howat and A Tyrkalo.

This necessitates a contest in each division in which there is a vacancy, with the election to be held on Sat. next Feb. 22.

Hansen's Corners.

The weather is fine here at present, with everyone grinding his axe, in preparation for Election day, Sat. next.

Mr J A Young will be the contender, in the Municipal election, against Councillor F Kreye. So it won't be a Scotch fight, after all. The Scotsmen are quiet at the present time; but goodness knows how long they'll remain so.

There sure was a big crowd at the dance at the school-house on the 7th. The building was crowded to the doors. There was a good feed, and it was voted a great affair by those who attended.

The farmers of this district are expecting an early Spring, as the black Crows are an almost daily visitors herabouts.

The local school was closed for a short time, owing to the illness of the teacher.

That was a big mistake about D McDonald trapping a black fox in a trap—the fur experts decided it was a black canine.

Mr Earl Erick is busy logging with Mr Wilkins.

Mr Grosskup is finishing up his sawing contract this week, and has about 250,000 feet of lumber.

Mr Claude Young and Mr Corinne are busy logging.

Mr T Wilons is getting ready for spring work.

A great many people would like to know how the name Hansens Corner originated. We expect this to be answered shortly.

A Natural Query.

There are some who will feel that if the Government wished to cut taxes it might have started on auto licenses or something like that instead of on wines and whiskies.—Edmonton Journal.

Travelling 180 miles in 55 hours of actual skiing from Jasper Park to Lake Louise, five skiers who will compete at Banff Carnival have just completed the longest and most hazardous trip of the contingent. In all, the time taken was over a week and during the trip the sometimes sleep in the open in 40 below zero weather and old times in wardens and old trappers' huts. All came through in the pink of condition.

Richard Jack, famous English painter; and Clive Carey, bariitone interpreter of English folk songs, recently left Saint John on board the S.S. Montrose. Mr. Jack has spent the summer and autumn in the Canadian Rockies and is taking to England a large number of canvases depicting mountain scenery. Mr. Carey appeared at the English Musical Festival at Toronto last November, and has toured the entire Dominion with the folk dancers, terminating with a concert at Saint John.

Captain J. Glendon and Captain G. Stedell, two British officers, are making a 6,000-mile trip, coming and going, from London to Quebec, via Saint John, to take in the Frontenac Winter sports at the Ancient Capital. They will witness the running of the International Dog Sled Derby and participate in skiing, skating and tobogganing.

In an address upon "Canada's Natural Resources and their Development," in Montreal the other day, G. M. Hutt, development engineer, Canadian Pacific Railway, pointed out that the value of agricultural products have increased fourfold in the last twenty years, while that of mines and forests have been trebled, fisheries doubled and developed, water power increased six times over.

Though the popularity of Old Dobbin continues to hold a prominent place on the farms of Canada, the "Iron Horse" or mechanical farm implement is advancing in favor, particularly in the Prairie Provinces. Estimates give a total of 66,229 tractors in operation on the 248,162 Prairie farms, 14,557 of which were bought last year.

Gross tonnage of vessels entering Honolulu harbor has increased from 2,885,218 tons annually to 7,174,242 in the last ten years, according to official figures released late in December. The Canadian Pacific inaugurated direct Vancouver to Honolulu service December 15 with the palatial express liner Empress of Canada. Other company vessels on this run will be the Empress of Russia, Empress of Asia and Empress of Japan, the latter recently launched.

In the province of Quebec there is now a total length of 12,502 miles of paved, macadamized and gravelled roads which is 58 per cent. of all rural roads in the province. In 1929 the Provincial Department of Roads maintained 19,195 miles of improved roads, constructed 1,884 miles of new road, 188 bridges and culverts and eliminated 16 grade crossings and 203 sharp corners and curves.

The Department of Immigration and Industry of the New Brunswick Government is getting ready for the reception of 100 B-fish and numerous Scandinavian families to be brought out in April, May and June, said Hon. J. A. Murray, superintendent of the department, on his return from Montreal to Saint John, following conferences there.

Heard on Main Street.

Walt—Say, how can you tell if a girl is intelligent?

Bert—If she likes you, she's intelligent.
